✓ **30 May - 3 June 2022 EU Green Week [hybrid] in Brussels**

EU Green Week helps improve public understanding of EU environmental policies, it features debates about their future development, and it improves the overall image of the EU among citizens and stakeholders around Europe.

In addition to a high-level conference in Brussels, EU Green Week 2022 will also feature a series of partner events organised across Europe. These events will broaden involvement, and we look forward to receiving contributions from a wide variety of sectors around the EU.
